

# After the Investigation...

"We are so thankful for the Psychic Home Inspection with Eddita Felt! " "Our dream of selling our house and moving to Florida came true! For months we couldn't sell our house...it always felt haunted to us. Within days of our Spirit Clearing with Eddita, we received six offers. It worked! We sold our house for our asking price in the middle of the recession!" Marique \* & Rory\* formerly from Portland, Maine

"The atmosphere in the building after the investigation feels lighter and more cheerful and I'm having more fun. The investigation was easy and fun at the same time, very interesting things were found." Through a mutual decision between the owner and the Spirits there, the "money ghost" stayed behind while the other spirits were relocated. Charlene Roberts, Topsham, ME RollerWorld

# Meet some of our team members

## **Eddita Felt, Lead Investigator**

Eddita is a trained intuitive Clairaudient, Clairvoyant, and Clairsentient. She experiences ghosts, Spirits and energy fields within a home, or business environment. She communicates with and relocates spirits, elementals, and other entities.

What Eddita likes best about this work is that she never knows who she will meet in person or in Spirit. \*

## **Hank Mosher**

He is a retired Professional Engineer, an active Dowser and Geopathologist working with the invisible as well as the ordinary 3 dimensional physical world. With Hank's innate understanding of mechanical and electrical equipment, he can easily detect contributing physical issues such as faulty machinery and structural challenges which

can sometimes masquerade as paranormal occurrences. Hank loves meeting new people and helping them feel comfortable in their home or business.

## **Marie Tucker**

Marie is the newest member of the Frontiers of The Mind team bringing with her, a sensitivity to spirit energies and communication as a Reiki and Shamanic Practitioner. Marie's work with Frontiers of the Mind started by assisting Eddita with videotaping at a local paranormal Investigation site. She

enjoys helping people to understand what they are experiencing and validating their paranormal experiences. \*

## **Volunteers**

Angela Handy, Jim McAvoy, Amy Mussman, Tricia Blanchard  
Susan St. Pierre Donovan, Michelle B.

## **Diane Ford**

Diane has studied Medical Chi Gung and Spiritual Healing; and brings that energy awareness to her Acupuncture practice at her offices in Brunswick and Lewiston. For the past four years Diane has been investigating Paranormal sites with Eddita. "It's just like acupuncture. People need help and sometimes I can make a difference."\*

## **Becky Grant**

Becky has been in the Metaphysical world for most of her life. As an adolescent she saw and understood things that were not present in what most call the "real world". At 10 years old she began assisting her mother in helping spirits to cross over. In 1996 she received her Reiki Master/Teacher attunement. With over 30 years experience, she still considers herself a student of

life and is always searching new avenues in which to explore and learn.\*

## ***\*Why I needed a paranormal investigation\****

"When I was here by myself, there were all these smells all the time, like aftershave or cologne, and cigar or cigarette smoke. We don't allow smoking here and these are all young kids who come in and out of here at the roller rink.

We kept having problems with the music. Its digital. But it would stop all by itself in the middle of a set. These computers came on all by themselves sometimes. But worst of all was that big creaky front door noise like the door was opening up and then nobody was coming in."

**\*Charlene Roberts, Owner of RollerWorld in Topsham, Maine**

"There are 4 of us here who have seen stuff or felt stuff at Maine State Music Theatre Costume Design. We have heard funny scratching noises in our storage space; footsteps overhead on the storage floor when the building is closed and nobody has access there, a dark haired man and a pale faced woman when nobody else is here. They just vanished. What really scared me and made me call and ask for an investigation was when one of the staff was here by herself one night. ..."
